

STREET MARKETS

Many local authority and privately owned markets are surfaced with mastic asphalt. The smooth, impervious surface mastic asphalt provides is ideal for the regular cleaning and washing down market areas are subjected to.

SPECIFICATIONS

30mm thick BS1447:1998 Type B Grade S, 30% 6mm aggregate laid in one coat with a sand rubbed finish. In foot trafficked areas where improved slip resistance is required, the mastic asphalt should be given a crimped surface finish.

MASTIC ASPHALT SURFACES PROVED

- An impervious surface
- Hygienic and easy to clean (brush or hose)
- Maintenance free long life surfacing
- Easily laid to falls to surface water gulleys
- Available in a variety of colours and patterns

PAVING Pt 2
